

Pollution Probe

POLLUTION PROBE 50TH ANNIVERSARY GALA CONFERENCE

As Pollution Probe celebrates its 50th anniversary, we are focused on the future and creating a renewed environmental vision for Canada. In this milestone year, our annual Gala will for the first time feature a Conference, dedicated to planning for the next few decades of advancing real environmental change.

Pollution Probe's annual Gala is a space for diverse groups to come together in a free and mutually supportive exchange of ideas and perspectives. The 2019 Pollution Probe Gala Conference will feature a range of experts working collaboratively towards a shared goal of breaking down silos and fostering synergies across sectors and disciplines to create a multi-faceted vision of the environment for 2050. The Conference findings will be compiled into an Action Plan setting out a high-level agenda for environmental action across Canada in the coming decades.

CONFERENCE OUTLINE
